

CORONA Processing at EKC 17 June 1959
Security DPD field trip to Rochester to investigate conditions
principally from security, cover point of view--all programs.

CORONA: COR processing area, including restricted access, review of transportation procedures from the West Coast, processing as normal 70 mm film, and the need to monitor this factor within the Facility to note non-acceptance by the employees.

Brief review of problems caused by the WS 117-L area on first and second floor beneath our Facility.

NRO review(s) completed.
